

Claro™ –
Nobody does it better...
except Nature.

PHONAK
hearing systems

“ After 20 years of frustration with hearing instruments that never made a real difference, Claro was a breakthrough for me. Suddenly I was confronted with a richness of sound that had become a distant memory.

Martina Nicolai, Music Therapist.

But perhaps the most incredible thing for me is the fact that Claro has had such a huge impact on so many aspects of my life. Friends comment on how relaxed and self-assured I am in all sorts of social situations. Only now do I realize that I have regained the active life that also had become a thing of the past. It's a sense of freedom that I can't imagine ever being without. ”

Four things that set Claro™ apart:

- The most natural sound quality ever thanks to Digital Perception Processing™ (DPP), exclusive to Phonak.
- Optimal understanding, even in noisy environments due to combined noise suppression systems, including the exclusive Phonak Adaptive digital AudioZoom™.
- Dedicated to your individual needs as a result of a wide range of product options and programming possibilities.
- Quality designed to last thanks to the use of innovative and durable materials and Swiss precision.

With Claro™ by Phonak – good hearing is second Nature.

The hearing system is both the most complex human organ and the key to communication.

Committed to improving the quality of life of hearing impaired individuals, Phonak provides the most advanced hearing instrument on the market – Claro™.

Based on the human ear –
Claro™ by Phonak.

Digital technology has enabled Phonak's experts to develop hearing instruments based on the human ear.

They called it **Digital Perception Processing™ (DPP)** – you will call it **excellent sound quality**.
A feature unique to Claro.

AutoSelect™, the first and only hearing system to provide automatic program selection. It ensures the **best possible speech intelligibility** in every environment.
A feature unique to Claro.

Adaptive **digital AudioZoom™** by Phonak is the most effective noise suppression system ever. This adaptive directional microphone system facilitates **communication in the most difficult environments**.
A feature unique to Claro.

The latest Phonak innovation is **WatchPilot™**, the world's first remote control for a hearing system integrated into a watch. It allows **convenient and discreet control of all Claro™ functions**.
A feature unique to Claro.

Another world first is the **integrated FM-receiver** that ensures **interference-free communication**. It works even in the presence of high noise and echo levels, or over distance.
A feature unique to Claro.

Claro – a wide range of products for a wide range of needs.

Claro™ – the most advanced communication system with cosmetic appeal.

Claro™ represents a complete range of hearing instruments designed to meet your hearing needs and preferences. Your hearing care professional will assist you in finding the system that works best for you. Ask about the innovative Phonak **WatchPilot™**, the world's first remote control integrated into a watch, for the ultimate in convenience.

WatchPilot for discreet and convenient operation of your Claro – by remote-control.

- **State-of-the-art** technology has enabled Phonak to integrate the sophisticated and proven features of Claro into a tiny, Completely-In-the-Canal (CIC) hearing computer. The result is a virtually invisible instrument providing excellent sound quality and optimum hearing in noise.

Claro CIC –
Small in size, huge in performance, fits snugly in the ear and is almost invisible.

Claro ITE –
The most sophisticated In-The-Ear hearing computer features Phonak's unique digital AudioZoom to optimize hearing in noise.

- **Claro™ Behind-The-Ear (BTE)** instruments represent the perfect combination of elegant design, performance and power. They can be used with the latest FM (Frequency Modulation) technology to give excellent speech understanding, even in the presence of high noise levels.

Claro BTE and Claro BTE FM –
With the Claro BTE instruments, Phonak has established new benchmarks in performance, design, convenience and durability. A tiny, integrated, FM receiver, provides the most powerful communication system.

Claro™ by Phonak – because it's only natural for you to want...

- ... the sound quality Nature taught you.
- ... optimal understanding in noise.
- ... hearing programs to respond to different listening environments.
- ... dedicated solutions for first-time users needing little amplification.
- ... dedicated solutions for experienced users to meet their specific demands.
- ... products endorsed by over 100,000 satisfied users.
- ... Swiss quality.
