

Eleva™

Intuitive. Responsive. Smart.

Eleva is intuitive

Hear what you want to hear in your daily listening situations thanks to Eleva's automatic programs.

Eleva is responsive

Experience maximum sound clarity as Eleva cancels out disturbing noises.

Eleva is smart

Benefit from color and customization concepts that meet your individual preferences.

Eleva will transform the way you hear!

Like the other products of its generation, Eleva is based on Digital Bionics. Unique to Phonak and inspired by nature, Digital Bionics implements the unique capabilities of biological systems using state of the art digital technology.

At the pulse of innovation

The Phonak Group specializes in the design, development, production and worldwide distribution of technologically advanced wireless and hearing systems. The combination of expertise in hearing technology and a strong cooperation with the hearing healthcare professionals allows Phonak to make a substantial improvement to the quality of life of individuals with hearing impairment and those close to them.

Today, with multiple brands and distribution channels, the Phonak Group offers a complete range of digital hearing instruments, along with high tech specialty products and complementary wireless communication systems. With more than 3,000 employees worldwide, the Phonak Group is one of the technology leaders in the industry.

Transforming your hearing experience

Butterflies – symbols of change

The butterfly undergoes various stages during the process of transformation before finding its final grace and beauty. It is a powerful symbol of change. Similarly, Eleva represents a new, more perfect and more beautiful form of hearing system which will transform the way you hear.

Eleva is your sensible choice that delivers a substantial increase in hearing performance.

The comprehensive Eleva product family includes tiny in-the-ear instruments, a micro-sized behind-the-ear system as well as a powerful behind-the-ear device.

Eleva will transform your hearing experience by offering a set of unique features that make it intuitive, responsive and smart.

Intuitive

Intuitively automatic

- Three fully automatic programs adapt to different listening situations
- Dedicated, automatically activated telephone program
- Optimal audibility, intelligibility and comfort

Responsive

Powerful and sophisticated noise management innovations

- Immediate reduction of background noise and enhanced speech understanding
- Preserved clarity for ease of listening
- Enhanced comfort since annoying sounds are reduced
- Listening without annoying and embarrassing whistling

Smart

Smart innovations, smartly designed

- Micro-size and open fitting options provide practically invisible hearing
- Eleva's behind-the-ear products come in new colors that match a range of hair colors
- Various remote controls offer discreet and convenient user control
